

We can help move your energy.

So we heard you're moving and you have a massive to-do list, we get that. This is just a friendly reminder not to forget about us. We hear lots of last-minute moving stories; below are a few tips to avoid becoming the next one.

It's not automatic

You wouldn't abandon your favourite couch, so why leave your electricity or natural gas behind? If you're moving within Alberta, plan to set up or cancel your services 30 days before your moving day*.

Transferring is free

Just like your buddies with the pickup truck, moving your energy doesn't cost anything and we're happy to help you on the weekend.

Communication is key

Make sure your first meal isn't a romantic pizza delivered in the dark. Talk to your partner about who's handling the utility change.

Visit enmax.com/moving or give us a shout at 310-4010 and we will take one thing off your list.

All customers are free to purchase natural gas services from the default supply provider or from a retailer of their choice and to purchase electricity services from the regulated rate provider or from a retailer of their choice. The delivery of natural gas and electricity to you is not affected by your choice. If you change who you purchase natural gas services or electricity services from, you will continue receiving natural gas and electricity from the distribution company in your service area. For a current list of retailers you may choose from, visit www.ucahelps.alberta.ca or call 310-4822 (toll free in Alberta).

*ENMAX Energy provides the Regulated Rate Option on behalf of ENMAX Power to customers in the city of Calgary, and offers retail energy plans in most areas in Alberta except for Medicine Hat, local gas co-operatives and some REAs. | © ENMAX Corporation
