

UTILITY WORK IN YOUR COMMUNITY

Reference #21302925

*****PROPERTY ACCESS REQUIRED*****

WHAT'S HAPPENING?

ENMAX Power Corporation (EPC) is required to perform visual inspections on existing power poles in your area due to aging electrical infrastructure. This work is necessary to continue providing ongoing reliable power for you and your community. Additional pole maintenance may be required in future to ensure utility poles meet current safety standards.

WHERE?

Prior to any work, visual inspection of power poles is required. These poles are located within City-owned boulevards on or adjacent to your property. Property access may be required to facilitate these inspections.

WHO?

On behalf of EPC, Integrity Pole Inspections Inc. will perform the inspection work. These crews have performed similar projects for EPC over the past 3 years.

WHEN?

This project is expected to take place between March 1, 2020 and November 1, 2020. Inspections will occur between 7 a.m. and 5 p.m. **Please note, you do not need to be present when crews are completing these inspections.**

WHAT TO EXPECT DURING INSPECTIONS?

SCOPE OF WORK

Crews may be required to expose the base of existing power poles to assess their condition. If required, remediation will occur immediately following the inspection, to include backfill. Please expect minor construction activities when crews are working in your area. On average, this work will take anywhere between 5-45 minutes per pole to complete. **This inspection will not affect your electrical service.**

ACCOMODATIONS

Please expect the following:

- Limited alleyway access: crews make every attempt to notify you in advance if access to your garage/parking pad will be impacted
- Crews may need to access private property to perform these pole inspections located in backyards
- Minor noise should be expected from power tools used in this process

OUR COMMITMENT

EPC and Integrity Pole Inspections Inc. are committed to being responsible corporate neighbours in the communities we serve. This commitment includes responding to public concerns and inquiries to allow for meaningful project dialogue. This allows us to deliver value-driven service in a responsible and accountable manner.

We appreciate your cooperation while we continue to provide reliable power to all Calgarians.

QUESTIONS?

If you have any questions about this work, please contact our Power Customer Relations team at 403-514-3990 or email powercustomerrelations@enmax.com.
