DOWNTOWN CALGARY TRANSMISSION REINFORCEMENT PROJECT

14 AVE SW BETWEEN 6 ST SW AND 7 ST SW CONSTRUCTION UPDATE JUNE

ENMAX anticipates construction to begin June 10th, on 14 Ave SW, between 6 St SW and 7 St SW. This phase of construction involves the splicing and termination of cables in the manhole.

This activity will require one lane closure, approximately 40m around the manhole, with potential on-street parking restrictions. For pedestrian safety, access may be restricted and temporary fencing, signage and detour information will be in effect. Entrance to parkades and alleyways will be accessible at all times.

Construction activities are anticipated to occur between 7a.m. to 7p.m, for a week.

A map highlighting the area under construction is include on the reverse. ENMAX will be returning to the area over the next few months to complete this phase of construction.

If you have any questions or wish to discuss the project please contact us:
