Dear Resident/Owner/Occupant:

RE: ENMAX Highway 8 and 101 St Transmission Line 7.82 Relocation Projects

ENMAX Power Corporation (ENMAX) would like to advise you that it intends to file two facility applications with the Alberta Utilities Commission (AUC) by the end of August 2019 or shortly after. One filing will be for the Highway 8 project and the other filing will be for the 101 Street project.

For the Highway 8 project, ENMAX's application will identify the "South Central" route as the preferred route and the "North" route as the alternate route. The "South" route is no longer being considered by ENMAX.

ENMAX will separately apply for approval of the one proposed route for the 101 Street project.

Once the AUC receives the applications, it will issue public notices that you should receive in the mail if you are in the affected area. The AUC's notice will give you information on how to submit any concerns you may have with either of the projects directly to the AUC. The AUC will also make both applications available to the public on their website. To learn more about the regulatory process, please contact the AUC at www.auc.ab.ca, info@auc.ab.ca, or (403) 310-4282.

If you have any questions or concerns, please contact Stakeholder Relations at stakeholderrelations@enmax.com or (403) 514-1471.

Sincerely,

Stakeholder Relations
ENMAX Power Corporation
