

NORTH CALGARY INFRASTRUCTURE UPGRADES

PROPOSED TRANSMISSION UPGRADES

PROJECT OVERVIEW

ENMAX Power Corporation (ENMAX) is proposing to replace a 69kV transmission line and associated components between ENMAX No. 27 Substation located at 4236 14th Street NW, and ENMAX No. 13 Substation located at 3439 7th Street NW. The transmission line was installed and commissioned in 1954 and due to deterioration, the structures need to be replaced and updated to today's standards. The proposed project will mitigate safety concerns and ensure reliability and integrity of the transmission line and electricity supply.

PROJECT DETAILS

The proposed project consists of the following:

- Replacing a total of 39 wood poles and their components in approximately the same location as the existing structures using ENMAX's new construction standards
- All replacement poles will be located in the existing alignment

TRANSMISSION STRUCTURES

The proposed single circuit transmission poles will be self-supporting wooden monopoles. Pole heights will range from 18 to 29 metres (60 to 95 feet) and will be 14 to 133 metres (46 to 436 feet) apart. The average increase in height for the new poles is roughly three metres.

PROPOSED TRANSMISSION UPGRADES

PROPOSED SCHEDULE

ENMAX plans to file an Application with the Alberta Utilities Commission (AUC) in December 2016. Subject to approval being granted, ENMAX expects construction to begin in March 2017 with a proposed in-service date of June 2017.

NOVEMBER 2016	Initial Stakeholder Engagement
DECEMBER 2016	ENMAX submits Application to the AUC
MARCH 2017	Construction begins
JUNE 2017	In-service date
NOVEMBER 2016 - JUNE 2017	Ongoing Stakeholder Engagement

COMMITMENT TO COMMUNITY

ENMAX is committed to being a responsible corporate neighbour in the community. This commitment includes providing timely and meaningful engagement with stakeholders about this project.

We have developed a comprehensive public involvement program to provide opportunities for area residents, occupants and landowners to be informed about this proposal and to engage with ENMAX in dialogue from the planning phase through to construction.

ABOUT ENMAX CORPORATION

ENMAX, through its subsidiaries, makes, moves and sells electricity to residential, small business and large commercial customers and is headquartered in Calgary, Alberta, with offices in Edmonton. ENMAX Power Corporation owns and operates transmission and distribution infrastructure in Calgary and ENMAX Energy Corporation owns diverse electricity generation facilities throughout the province. Since 2007, ENMAX has been named one of Alberta's Top Employers. ENMAX Energy is currently the retailer of choice for both The City of Calgary and The City of Edmonton.

SAFETY AND RELIABILITY

Calgarians rely on us every day to provide them with safe and reliable power. As our city grows, so do our needs for electricity. At ENMAX Power Corporation, we are committed to providing long-term, innovative solutions to meet the growing demands of our city.
