

# Project Cancellation for the Calgary Energy Centre Peaking Plant Connection in the Calgary Area

*The Calgary Energy Centre No. 2 Inc.'s (CEC2) request for transmission system access to connect its approved Calgary Energy Centre Peaking Plant (Facility) in the Calgary area has been cancelled.*

## BACKGROUND

The Alberta Utilities Commission (Commission) originally approved the AESO's *Calgary Energy Centre Peaking Plant Connection Needs Identification Document* (NID) on March 22, 2017. The NID approval included the following transmission developments:

- Add one substation, including adding three 138 kilovolt (kV) circuit breakers and connect the proposed substation to the Facility.
- Modify the existing 162S substation, including adding one 138 kV circuit breaker.
- Add one 138 kV transmission line to connect the 162S substation to the proposed substation in a radial configuration.
- Add or modify associated equipment as required for the above transmission developments.

## NEXT STEPS

The AESO intends to apply to the Commission for cancellation of the NID approval in mid-2020.

Information related to the Calgary Energy Centre Peaking Plant Connection project is available on the AESO's website at [www.aeso.ca/stakeholder-engagement/transmission-projects](http://www.aeso.ca/stakeholder-engagement/transmission-projects)

## WHO IS THE AESO?

The Alberta Electric System Operator (AESO) plans and operates Alberta's electricity grid and wholesale electricity market safely, reliably and in the public interest of all Albertans. We are a not-for-profit organization with no financial interest or investment of any kind in the power industry.

We appreciate your views, both on the need for transmission system development and proposed transmission plans. If you have any questions or comments, please contact us directly.
