Information about our proposed utility work in your area

RE: NORTHWEST CALGARY Transmission Line Relocation Project

Dear Resident/Occupant/Business Owner:

On behalf of the ENMAX Power Corporation (ENMAX Power) Stakeholder Relations team, we want to share an **updated information package** with you about our proposed NORTHWEST CALGARY Transmission Line Relocation Project (the Project).

We have included the following documents for your review:

- Updated Project Newsletter: contains details about the Project, including the proposed work to be completed, Project location and the planned schedule; and,
- The Alberta Utilities Commission (AUC) Public Involvement Brochure: outlining the role of the AUC and the Project approval process.

This information is also available on our website at enmax.com/nwcalgaryproject. On the webpage, you will also be able to learn more about why ENMAX Power is proposing this transmission Project.

Stakeholder Consultation Process

Our team has been committed to actively engaging with stakeholders and obtaining your feedback about the proposed Project - your input is valuable to us. Through the stakeholder consultation process, our team has identified a preferred and alternate route, which will be presented to the AUC in the upcoming Facility Application.

The AUC Process

In late Q2 2022, ENMAX Power will file an application with the AUC for approval of the Project. The AUC will review the application through its formal process, where stakeholders are provided an additional opportunity to participate. To learn more about the AUC process and how you can become involved, please refer to the brochure included in this package titled, *"Participating in the AUC's independent review process to consider facility applications"*.

To learn more about the AUC regulatory process, please contact:
