**ENMAX Southeast Substation Safety Enhancement Project**  
**RE: Information about our proposed utility work in your area.**

---

Dear Resident/Occupant/Business Owner:

On behalf of the ENMAX Power Corporation Stakeholder Relations team, we want to share this information package with you about our proposed ENMAX Southeast Substation Safety Enhancement Project (the Project).

---

We have provided the following documents for your review:

- Project Newsletter: includes details about the Project, including the proposed work to be completed, Project location and the planned schedule and
- Alberta Utilities Commission (AUC) Public Involvement Brochure: outlines the role of the AUC and the Project approval process.

This information is also available at [enmax.com/SESubstation](http://enmax.com/SESubstation).

**Providing Your Input**

Our team is committed to actively engaging with stakeholders and obtaining your feedback about the proposed Project - your input is valuable to us. The stakeholder consultation process will allow us to effectively share Project information and address any questions or concerns you may have in advance of filing the Project with the AUC.

ENMAX will be hosting online information sessions via Microsoft Teams, where you will have the opportunity to engage with subject matter experts and learn more about the Project. These will include discussions about the need for the Project, route options, environmental considerations and ENMAX's Participant Involvement Program.

If you are interested in attending one of these sessions, please **sign up** on our project page at [enmax.com/SESubstation](http://enmax.com/SESubstation). If you are unable to sign up online, please call our Stakeholder Relations team directly at **403-514-1471** and we'd be happy to assist.

## **The AUC Process**

In Q1 2022, ENMAX will file an application with the AUC for approval of the Project. The AUC will review the application through their formal process, where stakeholders are provided an opportunity to participate. To learn more about the AUC process and how you can become involved, please refer to the brochure included in this package titled, "*Public involvement in a proposed utility development*".

To learn more about the AUC regulatory process, please contact:

**Alberta Utilities Commission**

Phone: 403-310-4282

Email: [info@auc.ab.ca](mailto:info@auc.ab.ca)

Website: [auc.ab.ca](http://auc.ab.ca)

Should you require further information about the Project, please feel free to reach out to us directly:

- Call us at 403-514-1471.
- Email us at [stakeholderrelations@enmax.com](mailto:stakeholderrelations@enmax.com).
- Use the online "Request a callback" feature at [enmax.com/SESubstation](http://enmax.com/SESubstation).

Thank you, and we look forward to speaking with you soon.
